

**Your lecturer:**

**Prof. Dr. med. dent. Fouad Khoury**

Born in Maghdouché / Libanon  
 1978 DMD, St. Joseph University, Beirut  
 1978- Department of Oral and Maxillofacial Surgery of the University of Freiburg, Germany  
 1979- Assistant Professor at the Department of Oral & Maxillofacial Surgery, University of Münster, Germany  
 1984 Diploma in Oral Surgery  
 1988 Habilitation (german PhD)  
 1988- Associated Professor at the Department of Oral & Maxillofacial Surgery, University of Münster, Germany  
 1994 full Professor at the Department of Oral & Maxillofacial Surgery, University of Münster, Germany and Chairman of Privatklinik Schloss Schellenstein, Implantology center, Olsberg, Germany

Several registered patents and more than 115 Publications, 800 lectures/courses on Oral Surgery, Bone Transplantation, Implantology . . .

micro-screw kit Ø 1,0 mm & 1,2 mm acc. to Prof. Dr. F. Khoury

German patent!

convincing benefits:

- extended possible applications by means of a small diameter of the screw head
- high stability with reduced diameter of 1,0mm and 1,2mm
- safe fixation through multiple thread pitches even for fine bone chip transplants

augmentation techniques e.g.:

- Lateral bone augmentation
- Horizontal bone augmentation
- 3D bone augmentation via tunnel technique

Application instrument with pusher acc. to Prof. Dr. F. Khoury

Also available now as curved version, especially for areas with difficult access!

German patent!

Single-handed pick-up and application of bone material with just one instrument!

We are always at your disposal and inform you about our distributors worldwide.

**SYMBIOS®**

**Discover the difference**

Precise and atraumatic autogenous bone harvesting.

Precision and safety in osteotomy

FRIOS® MicroSaw acc. to Prof. Dr. F. Khoury

For smooth and bone-preserving preparation of bone blocks and access windows

- **Highest precision** – the 0.29 mm MicroSaw disk is constructed to produce an extremely accurate osteotomy line.
- **Atraumatic** – the hinged soft tissue protector is easy to attach and to remove again. Direct blade cooling prevents overheating during the procedure.
- **Proven** – in clinical use since 1986.

## Augmentation Procedures part I:

Bone Harvesting Techniques,  
Augmentation and Soft Tissue Surgery  
with live-operations and hands-on-training

### Team:

Prof. Dr. Fouad Khoury  
Dr. Thomas Hanser  
and team

### Dates:

	19./20.01.2017	English
	09./10.02.2017	Spanish
	16./17.02.2017	Italian
	23./24.03.2017	German
	11./12.05.2017	French
	18./19.05.2017	English
	25./26.01.2018	English

1st day: 09.00 am to 07.00 pm  
2nd day: 08.30 am to 03.00 pm

### Program:

- > 10 hours live surgeries
- Aesthetic and function in implantology
- Principles of soft tissue management: various types of incision, blood-support design of the different flaps, suture techniques
- Soft tissue management: vestibuloplasty, second stage technique, roll flap, apical reposition flap
- Pathophysiology of bone transplantation
- Basics of augmentative procedures
- Bony-lid approach in implant surgery
- Intraoral bone harvesting techniques: instruments, method retromolar, chin
- Augmentative procedures: bone spreading, bone splitting, bone expanding, extensionplasty, bone core technique, lateral bone block graft, sinus floor elevation
- Bone substitute materials
- Hands-on-training: minimal invasive augmentation, bone core technique, bone block harvesting, split bone block technique, bone block stabilization with microscrews . . .

The participant needs previous knowledge in implantology!

Course dinner on Thursday at about 8 pm.

**The number of participants is limited.**

**Course fee:**  
€ 1.780,- (Tax incl.)

## Augmentation Procedures part II:

Vertical Bone Grafting Procedures and  
complex Soft Tissue Management

Follow course of part I  
with live-surgeries

### Team:

Prof. Dr. Fouad Khoury  
and team

### Dates:

	21./22.09.2017	German
	28./29.09.2017	English
	12./13.10.2017	French

1st day: 09.00 am to 07.00 pm  
2nd day: 08.30 am to 03.00 pm

### Program:

- > 10 hours live surgeries
- Planning of complex cases
- Soft tissue management part II: roll flap, rotation flap, palatal flap, free soft tissue graft, vestibuloplasty, apical reposition flap, Papilla reconstruction techniques
- Lateralisation of the nerves
- Special augmentative procedures:
  - onlay bone block graft and 3D reconstruction
  - tunnel technique
  - complex sinus floor elevation
- Temporary implants and immediate loading
- Long term results and complications

**The participant needs previous knowledge in implantology and should attended augmentation procedures part I!**

Course dinner on Thursday at about 8 pm.

**The number of participants is limited.**

**Course fee:**  
€ 1.780,- (Tax incl.)

## Augmentation Procedures part III:

Sinus Floor Elevation  
with live-operations

### Team:

Prof. Dr. Fouad Khoury  
and team

### Date:

 07./08.12.2017 German

On request in english and french.

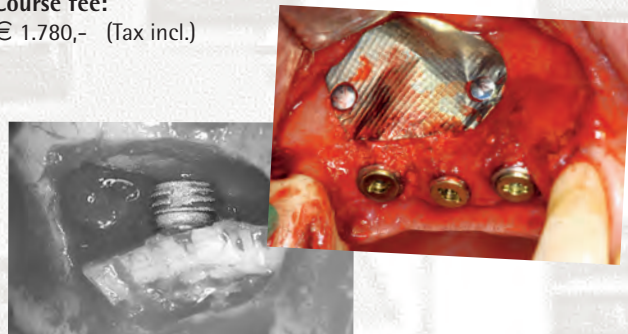

1st day: 09.00 am to 07.00 pm  
2nd day: 08.30 am to 03.00 pm

### Program:

- > 10 hours live surgeries
- Implant planing and indication
- Anatomy of the sinus and surrounding structures
- Surgical techniques of the sinus floor elevation:
  - internal sinus lift
  - window technique
  - bone condensing
  - with or without simultaneous implantation
- Augmentation materials:
  - autogenous bone: particulated
  - autogenous bone: block graft
  - alloplastic materials
  - membranes
- Complications intra- and postoperative
- Long term results and prognosis
- Hands-on-training

Course dinner on Thursday at about 8 pm.

**Course fee:**  
€ 1.780,- (Tax incl.)

## Augmentation Procedures part IV:

Implantation, Bone Augmentation,  
Soft Tissue Management and Prosthodontic  
Restoration in the daily Office

3-days intensive training course

### Team:

Prof. Dr. Fouad Khoury  
OA Dr. Friedrich-Wilhelm Pape  
Dr. Charles Khoury  
and team

### Date:

 21.-23.06.2017 English

1st day: 09.00 am to 07.00 pm  
2nd day: 09.00 am to 07.00 pm  
3rd day: 08.30 am to 03.00 pm

### Program:

- > 15 hours live surgeries
- Planning of complex treatment
- Implantation in combination with vestibuloplasty
- Intra oral bone harvesting: instrumentation and method
- Bone augmentation techniques: bone splitting/spreading/ expanding, bony lid method, block graft (lateral & vertical)
- Soft tissue management during bone augmentation, implantation and second stage surgery (vestibuloplasty, apical reposition flap, roll flap . . .)
- Advanced augmentative procedures: sinus floor elevation, vertical 3D reconstruction, tunnel technique . . .
- Prosthetic restoration
- Complications

Course dinner on Wednesday and Thursday at about 8 pm.

**The number of participants is limited.**

**Course fee:** € 3.350,- (Tax incl.)

## Augmentation Procedures part V:

Advanced Training Program on Bone Grafting and  
Soft Tissue Management with Hands-on-Training  
on human Cadavers.

### Team:

Prof. Dr. Fouad Khoury  
Dr. Thomas Hanser  
Dr. Romain Doliveux  
Dr. Charles Khoury  
and team

### Date:

 19.-21.10.2017 English

1st day: 09.00 am to 07.00 pm  
2nd day: 08.30 am to 03.00 pm

**Place: Privatzahnklinik Schloss Schellenstein, Olsberg**

3rd day: 09.00 am to 02.30 pm

**Place: Institute of Anatomy at the University of Münster**

It is an exceptional course for a very limited number of participants. The course begins on Thursday 19th October in Olsberg with several live surgeries on patients and will finish on Friday afternoon at 03.00 pm. The hands-on-training on cadaver ist starting on Saturday morning at 09.00 am at the Institute of Anatomy of the University of Münster. **The cadavers are prepared with an exceptional and unique method called "Thiel fixation". This method leaves to the soft tissue enough elasticity to perform in a realistic way the various techniques of soft tissue management and bone grafting.**

### Program:

- > 12 hours live surgeries
- Advanced soft tissue surgery, pediculated palatal flap . . .
- New techniques of bone grafting to improve the prognosis
- 3D bone reconstruction and tunnel technique
- Sinus floor elevation and nerve lateralisation
- Complications

**The participant needs previous knowledge in implantology and should attended Augmentation procedures part I!**

**The program of the hands-on-training on cadavers also includes the following interventions:**

- Tooth extraction and immediate implantation
- Covering the alveoli with free or pediculated connective tissue graft. Kazanjian vestibulumplastic
- Retromolar and chin bone harvesting with the MicroSaw
- Sinus floor elevation, nerve lateralisation
- Bone splitting and bone spreading
- Lateral and vertical 3D bone grafting procedures and tunnel technique

Course dinner on Thursday and Friday at about 8 pm.

**Course fee:** € 3.927,- (Tax incl.)

exceptional  
course

## Augmentation Procedures part VI:

Clinical Masters Program in Bone Grafting and  
Soft Tissue Management

5 Days intensive course including theoretical background, live  
surgeries and hands-on-training on human cadavers

### Team:

Prof. Dr. Fouad Khoury  
Dr. Charles Khoury  
and team

### Date:

 05.-09.09.2017 English

Day 1-3: 09.00 am to 06.30 pm  
Day 4: 08.30 - 04.00 pm  
Day 5: 09.00 am to 02.30 pm (hands-on-cadavers)

During this 5 days training different topics of the courses I-IV will be presented and discussed, from simple minimal invasive bone grafting to 3D vertical bone augmentation. Theoretical background supported with live surgeries and hands-on-training on animal cadavers is presented for every topic. On the last day the participants have the chance to do different surgeries on human cadavers (Thiel fixated) with the support of the clinic staff. **Thiel fixation is a very unique technique giving the tissue excellent quality which is very similar to living tissue. This makes hands-on-training very close to real surgery in the office.**

### Program:

- Live Surgery
- Planning from simple to complex treatment
- Principles of soft tissue biology and soft tissue healing: surgical design, blood supply, incisions, vestibuloplasty, pedicle flaps, connective tissue grafts, roll flap, apically repositioned flap
- Biologic bone grafting procedures: safe bone harvesting, bone block grafting, core technique, lateral & vertical bone augmentation, Splitt Bone Block Technique, 3D reconstruction, tunnel approach, sinus floor elevation
- Restorative concept and procedure
- Complications and possibility of prevention and treatment

Course dinner on Thursday and Friday.

**Course fee:** € 6.545 (Tax incl.)
