Diagnosis and prognosis of root coverage
Predisposition of root coverage
Combined restorative-periodontal treatment for the esthetic goal

Surgical treatment of single-type recession defect
- Coronal advanced flap
- Connective tissue graft harvesting techniques
- Bilaminar techniques
- Treatment of concord atresia defects associated with gingival recession: selection of the most appropriate treatment approach
- The use of amelogenins in mucogingival surgery
- The use of substitutes of the connective tissue graft (mucograft – mucoderm) in mucogingival surgery

Surgical treatment of multiple recession defects
- Bilaminar techniques
- Connective tissue graft harvesting techniques
- Coronal advanced flap
- Distal wedge technique
- The use of substitutes of the connective tissue graft (mucograft – mucoderm) in mucogingival surgery

Hands-on (animal model)
- Trapsopodial and triangle split thickness surgical papilla-elevation
- Coronal advanced flap
- Distal wedge technique
- Combined techniques

Surgical treatment of multiple recession defect
- Coronal advanced flap
- Bilaminar techniques
- Combined techniques

Videos of the surgical techniques

From the diagnosis to the resective surgery

The resective surgery in natural dentition
- Diagnosis and treatment of altered passive eruption
- Treatment of gummy smile

Pre-osteohistoductive resective surgery
- Apically positioned flap
- Biological aspects
- Indications
- Technique

Relationship between resective and periodontal treatment
Conservative surgery in the upper anterior instant
- Crown-lengthening technique
- Distal wedge technique

Hands-on (animal model)
- Crown-lengthening technique
- Distal wedge technique

Course: Module 1 “Mucogingival esthetic surgery”
Course fee: 1.490.-- €  (plus 19% legal VAT, course catering included)
Registration: Please register at the latest on 1 October 2016 with the course registration form.

Course: Module 2 “From the diagnosis to the resective surgery”
Course fee: 1.490.-- €  (plus 19% legal VAT, course catering included)
Registration: Please register at the latest on 1 December 2016 with the course registration form.

Regenerative surgery
- Diagnosis of vertical long defects in regenerative surgery
- Selection of the vertical long defects in regenerative surgery
- Healing prognosis of vertical long defects
- Papilla preservation approaches in regenerative surgery
- The coronally advanced flap in regenerative surgery
- Relationship between mucogingival and regenerative surgery
- Surgical treatment planning of selection of biomaterial
- Surgical techniques and biomaterials according to the defects
- Guided tissue regeneration
- Induced tissue regeneration
- Use of bone filler
- The connective tissue flap + wall technique
- for the treatment of Miller IV class gingival recession
- for the treatment of vertical long defects

Hands-on (animal model)
- The connective tissue graft + wall technique
- The connective tissue flap + wall technique

Course: Module 3 “Regenerative surgery”
Course fee: 1.490.-- €  (plus 19% legal VAT, course catering included)
Registration: Please register at the latest on 1 May 2017 with the course registration form.

Course: Module 4 “Mucogingival esthetic surgery on implants”
Course fee: 1.490.-- €  (plus 19% legal VAT, course catering included)
Registration: Please register at the latest on 1 September 2017 with the course registration form.

Course fee: 1.490.-- €  (plus 19% legal VAT, course catering included)
Registration: Please register at the latest on 1 September 2017 with the course registration form.
Course registration form

Register for the complete course series – consisting of 4 modules

1. Mucogingival esthetic surgery
2. From the diagnosis to the resective surgery
3. Regenerative surgery
4. Hands-on course series in 4 modules: Mucogingival esthetic surgery

High-quality course series in 4 modules:

• 1. Mucogingival esthetic surgery
• 2. From the diagnosis to the resective surgery
• 3. Regenerative surgery
• 4. Hands-on course series in implants

Course facts

Course language: English
Course catering: included
Course location: Start am Markt GmbH
 Emminger Str. 39
 78576 Emmingen-Liptingen, Germany
Organization: Start am Markt GmbH
 Emminger Str. 39
 78576 Emmingen-Liptingen, Germany
Phone: +49 (0) 7443-5260-70
Fax: +49 (0) 7443-5260-77
E-mail: events@stoma.de

Registration conditions

1. Your registration for the course series or module is binding and may only be written on the course registration form. Your participation is confirmed as soon as the course fee was collected by direct debit by Start am Markt or with remittance of the course fee within one week after receipt of invoice.
2. The course fee for one person plus the currently valid VAT.
3. If the course series or course module cannot take place due to failure to achieve the minimum number of participants or other unforeseeable reasons, we reserve the right to postpone the course to an alternative date. If the event is completely canceled, the course fee already paid will be refunded, claiming damages are excluded.
4. If a course participant signs off later than 4 months prior to the course, the full course fee will be charged. The course fee will not be refunded. Of course a substitute can be announced for the already paid course fee. Cancellations or announcements of substitutes have to be made in writing.
5. We reserve the right to change organizational issues, e.g. regarding course dates or contents. Experience practical knowledge transfer under professional instruction, in collaboration with respected speakers at stoma® in close cooperation with our dental partners. Close-up training of the latest technology and applications are evaluated according to the guidelines of the German Organizations – ZAEnd (Chamber of Medical Practitioners) – ZLBiM (Association for Dental Medicine) and ZAAM (Federation of Scientific Food Associated Medical Practitioners). stoma® enables you to fulfill your advanced training obligations, and you can also collect valuable CPD points at the same time.

Curriculum vitae

Prof. Giovanni Zucchelli DDS, PhD

• Doctor in Dentistry
• Professor of Periodontology Bologna University
• IFOM in Medical Biotechnology applied to Dentistry
• Active member of European Academy of Esthetic Dentistry, Italian Society of Periodontology, Italian Society of Prosthodontics and European Federation of Periodontology
• Active member of European Federation of Periodontology and the American Academy of Periodontology
• Associate Editor and member of the Editorial Board of the International Journal of Esthetic Dentistry and member of the Editorial Board of the International Journal of Periodontics and Restorative Dentistry
• Winner of scientific prizes for the research in Periodontology in Italy, USA and Europe
• Author of more than 100 scientific publications in the fields of Periodontology
• Author of a book on Mucogingival Surgical Esthetics (Ed: Quintessence)
